**Re; Proof of sending of amendment to Patent Application 10/645,936 within specified time period.**

Please find accompanying this letter a photocopy of the Royal Mail, 'Signed for' International Priority Handling Receipt for the amendment to Patent application 10/645,936.

I am aware of the fines/charges that I will incur if I don't respond in the time period specified and I have now telephoned approximately 15 times and faxed the information that you requested 3 times in an attempt to resolve the matter.

In addition I have now mailed the information you requested.

I will telephone in 7 days from the date of sending this letter to check that you have received the information.

I hope the application can now proceed without incurring the fee of 120 U.S. dollars which I can ill afford.

Yours in good faith

*Peter J Glyde*
